AC.UK and GOV.UK domains: something we hear all the time!

New AC.UK and GOV.UK clients come to us for many reasons. Some of the reasons we hear repeatedly are:

- using our previous host we were unable to change DNS entries ourselves
- with our old host we found it difficult to get changes applied

Some even stated:

a new host we were considering said they could manage our gov.uk domain for us, but later said they could not!

We can host your gov.uk and ac.uk domains and provide you with full DNS management online, giving you 24 hour access to make changes as and when required.

Some of the GOV.UK domains we currently host are shown here:

<http://govhost.uk>

and some of the AC.UK domains we currently host are shown here:

<http://achost.co.uk>
