Good Morning!

In this newsletter:

- Extortion attempts - stay vigilant!
- Backups - have you made yours lately?
- How to increase the perception and integrity of a Parish Council website?

Extortion attempts - stay vigilant!

Over the years we have seen many different methods to extort money from users (fake web pages, fake emails, and telephone calls), but this one is new:

https://www.schneier.com/blog/archives/2018/07/reasonably_clev.html

This appears to rely on human nature to act first and question later.

Better to question any source first, check it is real, and to act only when sure.

Backups - have you made yours lately?

Maintaining a separate backup of your files (DNS records, website database, etc.) is important for the security of your business/organisation.

It is your responsibility to create and save a separate independent backup of all your data, for full details on how to make a backup please see:

<http://www.seiretto.com/newsletters/backups.php>

How to increase the perception and integrity of a Parish Council website?

Getting the recognition you deserve is difficult for most websites today, however, if the website is a .gov.uk the credibility is instantly elevated.

All Parish Councils can register their own .gov.uk domain and use it for their website and email which creates a great impression to others and gives those receiving your emails (you@YourParish.gov.uk) the .gov.uk stamp of authority.

Find out how to register a new .GOV.UK domain name here:

<http://www.seiretto.com/domains/register-new-.gov.uk.php>

Once registered we provide the first year hosting free of charge:

<http://govhost.uk/domain-hosting/>
